To our customers

4th of June 2024

Regulation (EC) 1907/2006 (REACH) (SVHC):

With regard to your inquiry, we comment as follows:

Regulation (EC) No. 1907/2006 (REACH Regulation) is the EU regulation on the registration, evaluation and authorization of chemicals. It regulates the handling of chemical substances in preparations and articles.

Registration of chemical substances

The company Sibalco AG is a downstream user in the context of REACH. Our products are considered as articles (Art. 3, Pt. 1 to 3 of the REACH regulation) and not as substances. Therefore, they are not subject to registration. The base materials used are either not subject to registration or are registered by our suppliers.

No chemical substances are released from our products under normal conditions of use (Art. 7, Pt. 1 + 2 of the REACH Regulation).

Exceptions to this are: Cleaning agents and fluxes (for soldering processes).

As a so-called downstream user (Art. 3. Pt 13), we cannot provide further, detailed information on the chemical composition of these products, as we have no knowledge of their compositions.

Substances of very high concern (SVHC) according to article 33 of the REACH regulation Candidate list of 23rd January 2024

According to our current knowledge, our products contain the substances of very high concern (SVHC) listed in Table 1, which are included in the candidate list of the European Chemicals Agency ECHA.

We comply with the obligation according to Article 33 of the REACH Regulation and inform our customers immediately if, according to new knowledge, further substances which are subject to notification are contained in our products.

Table 1: Status of REACH SVHC Candidate List and information for articles with SVHCs above the threshold value

Products	Substance	CAS Nuber	Note
In products made of or containing components made of alloys such as <ul style="list-style-type: none"> ▪ Steel (e.g. 11SMnPB30) ▪ Brass (e.g. CuZn39Pb3) ▪ Aluminium (e.g. AlCuBiPb) 	Lead (Pb)	7439-92-1	Lead may be present in concentrations higher than 0.1%. Alloys comply with exemptions according to Directive 2011/65/EU (RoHS) Annex III. 6a, 6b, 6c, 7a.
LED-spacers made of Makrolon 9415	Potassium perfluorobutane-sulfonate	29420-49-3	

Furthermore, according to our current knowledge, we are not aware of or have not been notified of any other substances that are included in the updated list (SVHC) published by the European Chemicals Agency (ECHA) or that would exceed the maximum permissible concentrations.

Substances according to REACH Regulation 1907/2006 Annex XIV and Annex XVII

In particular, we are not aware of any substances in our products that are listed in Annex XIV (Authorization List) and Annex XVII (Restriction List) of REACH Regulation 1907/2006.

Limitations

Sibalco AG hereby assumes that the information provided above is correct. The information provided is based on data obtained in the course of the ongoing due diligence process regarding goods and materials from third party suppliers. Sibalco AG provides this information "as is" without warranty of any kind, either express or implied.

If there are any changes to the facts described (Art. 33. 1), we will inform our customers accordingly.

Best regards,

Markus Schmid
Quality Management
